

# DAVID ALEXANDER VARON DUARTE

## FULL STACK DEVELOPER

### ABOUT ME

Full Stack Developer and Aeronautical Engineer with extensive knowledge in Ruby on Rails, frontend development, and relational databases. My engineering background has enhanced my skills in information technology. As a high-performance skater, I have gained efficiency, commitment, and teamwork abilities. I am dynamic, resourceful, and quickly adapt to new environments. Passionate about developing innovative solutions, I constantly seek to improve my skills and knowledge in the field of technology. With multidisciplinary skills, I can bring a unique perspective and effectively collaborate with diverse teams on challenging projects

### WORK EXPERIENCE

#### Web Developer

Freelancer, Dic 2022 - presente

- I have led multiple projects related to sales and event booking as part of a team, utilizing various technologies and collaborating through GitHub.
- We employed the Ruby language as a foundation, incorporating the Ruby on Rails framework, alongside HTML5, CSS3, SQL, and JavaScript.
- Through effective management, I successfully achieved the objectives of each project within the set timeframes.

#### Teacher Assistant TA

Le Wagon, Jul 2023 - presente

- I provide guidance to students in the Le Wagon web development bootcamp in Latin America.
- I assist in teaching Ruby on Rails, JavaScript, SQL, HTML, CSS, Bootstrap, Git, and GitHub.
- I collaborate in the creation of student projects, implementing various technologies.

#### Safety Management System Trainee (SMS)

Viva Airlines, Rionegro, Antioquia, Jul 2022 - Dec 2022

- Supported the Flight Data Analysis (FDA) department.
- Tracked operational safety reports.
- Provided support to the quality control and assurance areas.
